'Keep up the good work,' GT

Your newspaper is so remarkable in this day and age in that it is so different from the norm. The Gazette Telegraph is one of a very few newspapers in the country to espouse a conservative viewpoint, while at the same time giving a fair exposure of the opposite outlook. I just wish we had the likes of your paper in Boise.

I really believe that despite the efforts of a majority of educators (in public schools and colleges) and most of the media, a majority of Americans hold to the conservative philosophy.

I was born and raised in Colorado Springs, and I have a great interest in Amendment 2. I applaud those who held firm and voted it in. I was a classmate and friend of Will Perkins. He has been a great success in life and has performed a huge service to his community and his state as a leader of Colorado for Family Values.

There is currently a move underway here in Idaho to put an amendment proposal similar to yours on the ballot. Even before the proposal has been formed, some politicians and the media are taking potshots at the plan. Needless to say, the homosexual crowd (I think the use of the word "gay" is a travesty) is busy parading around and writing letters to the editor against the movement.

I fully expect that we will be successful here in Idaho, despite the recent formation of a homosexual group locally calling themselves, "Idaho for Human Dignity." Yes, you read that right.

Keep up the good work.

— Milt Williams
Boise, Idaho

Jesus Christ of Latter-day Saints, Jamboree Chapel, 8295 Jamboree Circle, with Bishop Duane Slocum officiating. Burial will be at Fairview Cemetery, 1000 S. 26th St.
